Insert organization name here:

INWAC (Inland Northwest Aerospace Consortium) is sponsoring the Inland AM\* Expo and would like you to attend this Advanced Manufacturing, Materials, and Aerospace Expo on September 29 and 30, 2014. This expo will feature over 100 manufacturers from the Inland Northwest area and will include a keynote presentation by MSCI and industry breakout sessions.

INWAC is a non-profit alliance of local aerospace manufacturers that focuses on bringing aerospace commerce to the Inland Northwest, while acting as a liaison between small manufacturers and large aerospace original equipment manufacturing companies.

This organization is striving to create a coalition of connections in the Inland Northwest in order to generate commerce in the area for aerospace manufacturing. Generating business locally is beneficial for both local companies as well as for large companies. INWAC is working original equipment manufacturers to show the benefits of utilizing local business to manufacture aerospace items. These benefits include proximity, price, and stimulating the local economy, as well as decreasing the cost of combining products to produce the larger piece.

The Inland AM\* Expo is a networking opportunity for manufacturers and consumers that showcases regional manufacturers. INWAC would like you to attend this Expo. If you will be able to attend please respond by email or phone to the contact information listed above. Thank you for considering attending this year's Inland AM\* Expo on Advanced Manufacturing, Materials, and Aerospace topics.

Sincerely,

Inland Northwest Aerospace Consortium
